Shipping samples

1. Pathogen Test (Required):

- Cells must be recently tested with NEGATIVE result for mycoplasma and all pathogens. Send AcceGen pathogen test results performed to info@accegen.com.

2. Cell Preparation

- Ship the active cells in two or three (2-3) x T-75 flasks at 70% confluence or 2 million frozen cells in cryovials.
- Provide enough media for 2-4 weeks of culturing.

3. Shipping Instructions

- Prior to the shipment of active cultures, fill up the T-75 flasks with warmed media, tighten the caps and seal with parafilm (use a non-filtered cap to prevent leakage).
- Wrap flasks with absorbent material to keep them from moving and to provide insulation.
- Pack flasks securely in a Styrofoam box.
- Ship the flasks at room temperature.
- Label, and ship FEDEX OVERNIGHT to:
